Gender ideology

A false anthropology

Atheistic, self-creating

Self-determined identity (“gender”) - feeling

Sex is “assigned,” a meaningless label

Body is a tool or canvas, no inherent meaning

No human nature (no truth, no objective “good”)

Contingent dignity (recognition by law or others)

Purpose: pleasure, self-actualize

Sexual union – pleasure only

Marriage and family – Chosen - for adult benefit

Children – option, a “right” of adults

Oppressors v oppressed – destroy oppressive structures

Why does the Church speak out on gender ideology?

Because the truth about “who we are” matters.

False anthropology
Gender ideology is incompatible w Christian anthropology

Real-life harm
Gender ideology undermines human flourishing.
